Bert Scribner Receives Certificate From New York Central

Bert Scribner, affable boilermaker, eyellist and fisherman, has received a Certificate of Service from the New York Central railroad which makes him quite proud.

Mr. Scribner retired from the railroad in February after 45 years with the company and has recently received the certificate. It says:

"This is to certify that Bert Scribner has been employed by this company or its allied lines from Aug. 16, 1898, to Feb. 19, 1954, and having faithfully performed the duties of employment for a period of 56 years and six months, is hereby honorably relieved from active duty as boilermaker and his name placed on the Honor Roll of this company."

"New York Central Railroad Co."

IT DIDN'T HAPPEN HERE: In Glasgow, a couple of newlyweds were having their first argument.

"I'm beginning to think you married me only because my uncle left me \$15,000," the wife complained.

"Don't be silly," the husband replied. "I don't care who left it to you."

WE GROW 'EM ODDER DEPT.: Leslie Taylor of Garden Heights brought in a most unusual sweet potato this week. It was one he dug out of his own garden.

This unusual specimen had a body, a neck, a head and a tail, and they were proportioned to make it look like a miniature dinosaur. And some tiny purple sprouts on the head part looked like eyes and ears.

Mr. Taylor put four match sticks into the body to give the critter some legs so it could get aitcha easier.

AND THIS DIDN'T HAPPEN HERE, EITHER: A proud father attended a parent-teacher gathering at school and discussed his young genius with the principal.

Principal—Your son will probably go down in history—

Father (interrupting)—That's great, I always knew—

Principal (interrupting)—But then of course he might do better in geography and other subjects.

THIS DID HAPPEN HERE: And while we're on the subject of subjects, might point out that the Harrisburg Bull Dog team had some mighty intelligent signal calling the past season.

Charles Polk, senior quarterback, led all HTHS students in grades for the past season with an average of 97.14.

AND WHILE WE'RE ON THE SUBJECT of sweet potatoes (which were a piece back), I was reading that sweet potatoes are combined with wheat in a newly-patented doughnut mix. In the process, pre-cooked sweet potatoes are mixed with soluble solids to form a smooth paste which is blended with additional solids to form a first flour; the second flour is made from dry wheat components and then mixed with the sweet potato flour.

Sam Smith Accepts Editor Post At Sullivan, Ind.

Sam L. Smith, who has been editor of the Metropolis News since leaving the Harrisburg Daily Register staff in 1951, has announced his resignation from the News to accept a position as editor of the Daily Times at Sullivan, Ind.

Smith will begin his duties at Sullivan Monday.

The Smiths are moving to Sullivan because of the health of their 20-month-old daughter, Sherry, who has suffered from skin irritations and respiratory ailments since birth. Doctors have recommended a climate farther north and away from rivers for the child.

Mrs. Smith is the former Miss Louise Beltz, daughter of Mr. and Mrs. Louise Beltz.

Smith, a graduate of the University of Illinois school of journalism, was a member of The Daily Register staff from 1948 to 1951.

Nationalists Claim Assault Is Beaten Off

Island is 150
Miles West of
Formosa Near China

TAIPEI, Formosa (U)—Swarms of Red Chinese troops attacked Wuchiu Island today but a spokesman said the Nationalist defenders, after inflicting heavy casualties, and capturing many Reds, forced the assaulting forces to withdraw.

Generalissimo Chiang Kai-shek's information chief, in announcing the surprise Red invasion of the rocky island 150 miles west of Formosa, said the Nationalists took "high casualties" in the fierce four-hour hand-to-hand battle. The Nationalists suffered only a "few" casualties, he said.

And, he said, the Nationalist air force sank eight of the "great number" of motorized junks which launched the Reds on their attack. The junks were accompanied by five Red gunboats.

Earlier reports said the Communist troops approached the "S" shaped island from three directions in 10 motorized junks.

It was the first major Communist raid on a Nationalist-held island since the Reds carried out a hit-and-run raid on Quemoy Island, 75 miles southwest of Wuchiu, on Aug. 23.

No Americans were stationed on the island, which is so small that it is not shown on most maps, and only a few fishermen live there.

News of the Communist attack sent Chiang into an emergency conference with his military chiefs and American advisers.

AUGUSTA, Ga. (U)—President Eisenhower was kept informed today of latest developments in the invasion by Chinese Reds of the Nationalist island of Wuchiu. But he withheld comment.

Molotov Pays Eulogy at Rites For Vishinsky

MOSCOW (U)—Ten thousand mourners in Red Square today heard Foreign Minister V. M. Molotov eulogize the late Andrei A. Vishinsky as "a defender of peace."

Premier Georgi Malenkov headed the list of pallbearers who carried his ashes to their final resting place within the red brick Kremlin wall.

A big gun roared three-round salvos and the great golden clock on the Kremlin's Spassky Tower struck 3:30 as Malinkov, Nikita Khrushchev and all other members of the central committee of the Soviet Communist party bore the urn containing Vishinsky's ashes from the Hall of Columns.

United States Charge d'Affaires Walter N. Wamsley Jr. joined representatives of the entire Moscow diplomatic corps in attending the funeral of the man who, until early this week, was the Soviet Union's chief delegate to the United Nations.

Molotov, who crowded Vishinsky out as foreign minister after the death of the late premier Josef Stalin, delivered the main eulogy.

A military escort, marching to a funeral dirge, accompanied Vishinsky's ashes from the Hall of Columns, where his urn had been on public view, to its niche in the Kremlin wall.

Gov't Predicts Higher Production And Employment

WASHINGTON (U)—Increased production and higher employment will brighten the nation's economic picture during the closing days of 1954, the government predicted today.

The Federal Reserve Board said the gross national product, which is the value of all goods and services produced, "appears" to be increasing after showing little change during the second and third quarters.

The Labor Department reported after a survey of 149 major industrial centers that "slight gains" in employment will be made through the end of the year although "jobs may taper off somewhat as the new year opens."

The Commerce Department said employment in October stood at 62,141,000 and unemployment at 2,741,000.

Families of 13 Imprisoned By Red China Receive Assurances from President

WASHINGTON (U)—The families of 13 Americans imprisoned by the Chinese Communists had assurances from President Eisenhower today that the government is "using every feasible means" to obtain their freedom.

The President sent Thanksgiving Day telegrams to the families from Augusta, Ga., where he is spending the holiday.

"You may be very sure that your government is using every feasible means to bring your husband or son and all other Americans now in Communist hands to freedom and to secure their proper treatment so long as their confinement continues," Mr. Eisenhower said.

"These efforts will be carried forward resolutely and tirelessly," he said.

Angry Note Prepared
The government has prepared a scorching note protesting "wrongful detention" of the 11 airmen and two civilians on trumped-up spy charges. U. S. Consul General Franklin C. Gowen at Geneva, Switzerland, has demanded a meeting with Red China's representative there to deliver the note but so far has been snubbed.

While the State Department here studied the next step to take, Ambassador Henry Cabot Lodge Jr., U. S. ambassador at the United Nations, charged in a statement that Red China has added "still another item to the long list of reasons why the unspeakable gang in Peking is unfit to sit in the United Nations."

Other Actions Possible
Officials here said several courses of action are open if the Geneva effort fails:

1. Ask Britain, which maintains diplomatic relations with Red China, to deliver the protest. Britain Thursday officially joined the United States in denouncing the imprisonment of the Americans as a violation of the Geneva convention on treatment of war prisoners.

2. Appeal to Russia to intervene with the Chinese. Some officials here believed Russia might take such a step in view of the recent emphasis on peaceful co-existence with the West.

3. Place the matter before the United Nations. Lodge's statement may have been a buildup for such a move, but it was believed an appeal to the U. N. would be made only as a last resort.

The State Department said "all possibilities are being looked into."

Red China Claims 'Confessions' By Jailed Airmen

TOKYO (U)—Red China, which has ignored a U. S. protest against the jailing of 13 American airmen on "trumped-up" spy charges, today broadcast purported "confessions" of the men who were sent to prison for from four years to life.

Wednesday the United States government demanded that Red China's consul general in neutral Geneva accept, in person, a protest from U. S. Consul General Franklin C. Gowen against the imprisonment of the Americans.

That demand has gone unanswered.

Today Peking Radio, in a broadcast monitored here, claimed that the concerned had "confessed" their crimes against Communist China's security in a public trial in a Red court.

Sat. Civilian Confessed
The first of the alleged confessions read on the Peking broadcast was claimed to have been that of John Downey, an American civilian who received the most severe sentence—life imprisonment in a Chinese jail.

It quoted Downey as saying he was "trained by the Central Intelligence Agency" for his espionage operations in China.

Downey was one of two civilian passengers aboard a commercial plane of the Civil Air Transport Airlines, which disappeared two years ago.

The Communist judge was quoted as asking Downey:

"Did you train other people when you were in Japan?"

Downey was quoted as saying, "Yes... I trained these people."

The "people" referred to were Chinese nationals claimed by the Peking government to have been trained in espionage and sabotage and air dropped on the China mainland from American planes.

"Why did you come in person from northeast China," the judge was quoted as asking.

"To pick up the agent Pu Ching Wu and bring him back to Japan," was Downey's alleged reply.

Youth and Sister
Seriously Injured
In Auto-Truck Crash

A 19-year-old youth and his sister were seriously injured shortly before noon yesterday in an auto-truck crash on Route 34 near Herod.

In the Rosiclare hospital are Harvey Smee, 19, of Gary, Ind., and his 10-year-old sister, Gertie. Their mother is Mrs. Lela Smee of Herod. The youth received severe cuts about the throat and face and the girl suffered head injuries and cuts on the face.

They are grandchildren of Mrs. Anna Potts of Harrisburg. Relatives today said the two were in the car alone, driving north on Route 34 toward the Gap from Mrs. Smee's home. They started to go around a truck as it started a left turn off the highway, they stated, and when young Smee pulled back onto the right lane the auto hit the rear of the truck.

Hangs Self in Jail

WAUKEGAN, Ill. (U)—Floyd Reilly, 44, Waukegan, was found hanging in a police station cell Thursday night 20 minutes after he had been jailed.

Reilly, a factory worker, had been charged with drunken and reckless driving, having no lights on his car, and driving on the wrong side of the street.

Actions by Young Vandals Lead to Deaths, Stabbing

Youths Set Fire to
Girls' School, Three
Firemen Killed in Crash

CHICAGO (U)—Three teenagers' night of "bumming around" led to the death of three firemen and the stabbing of a Korean war veteran, police said today.

Officers were still piecing together the young vandals' stories, but said they had established this much:

They twice broke into a private school for girls Wednesday. One of them, enraged because his girl friend had been expelled, set fire to a stack of paper underneath a stairway.

Two firemen were killed in a collision as they sped to the 2-11 fire and a third died of a heart attack while manning a hand-pump.

Between the two break-ins the three youths attacked and knifed a veteran who yelled at them for almost running him down in their convertible.

The three youths, all products of broken homes, were held while police debated what charges to place against them.

The case was the latest in an outbreak of juvenile hoodlumism in Chicago's Southwest Side. Police have resorted to curfews and "get tough" policies in an attempt to quell roving bands of young toughs, including "wolf pack" gangs of girls.

Youths Identified
The youth who touched off the fire was identified as Phillip Villano, 16-year-old son of a night-club singer. The others were Joseph Gushi, 18, and Arthur Hackel, 17.

Police said the youths told them they were "bumming around" early Wednesday when they decided to break into the Loring School for Girls.

After climbing through a school window, the boys noticed a woman watching and fled. A short time later their car, owned by Villano's mother, almost hit veteran Bernard Murphy Jr., 28.

Murphy yelled in protest and the three youths piled out of the car. Police said Gushi had confessed he stabbed Murphy. The wound was not serious and Murphy has been released from a hospital.

The boys then returned to the school, stole \$40 in cash and jewelry, ransacked drawers, tore a telephone off the wall and scattered papers, police said.

As a parting touch, Villano said, he set fire to the stack of papers. The boys fled as the flames gathered force. The fire's damage has been estimated at \$10,000.

Villano expressed resentment against the school because his 17-year-old girl friend was expelled 10 days ago for "behavior detrimental to the rest of the students."

Thanksgiving Accidents Cost 171 Lives; 139 Die in Holiday Traffic

By United Press
Motorists today posted a sorry Thanksgiving Day traffic safety record.

A final United Press tabulation showed that 139 persons died in traffic between 6 p. m. Wednesday and midnight Thursday night. Fires killed 4 and miscellaneous accidents 28 for a total of 171.

Illinois led all other states with 18 traffic deaths during the one-day holiday. Michigan reported 11, Texas 9 and Idaho and Kentucky 8 each.

The worst accident occurred at Burley, Idaho, where six persons were killed instantly when their parked car was rammed from behind in a blinding dust storm. The dead were three married couples.

Seven others were injured in the accident.

The National Safety Council said it does not record Thanksgiving Day fatalities as such, but that the death toll far outstripped that of a normal Thursday in November.

A spokesman said it was a discouraging preparation for "SD" Day, less than three weeks away. The day has been set aside by President Eisenhower for a unique safety campaign in which motorists are urged to keep the death toll at zero.

The count was boosted by a handful of multiple death accidents. A head-on collision near Mendota, Ill., killed five persons and smashups near Monmouth, Ill., Greencastle, Ind., and Ontario, Ore., killed four each.

Near Winona, Minn., Keith Fix, 23, died in a head-on collision just two hours after he became a father for the first time.

Bad driving conditions in parts of the nation played a part in the carnage. The upper Midwest, Northeast and Northwest states were battered by snow and rain, and a fog-smog combination cut visibility to practically zero at Los Angeles, Calif.

OIL REPORT: Calvert Wildcat in J. Bona Well Is Hot Spot in County Activity

By JERRY ROBERTSON
Tri-State Oil Reporter

Hot spot in Saline county the past week was in Brushy township, over six miles from production and five miles northwest of Harrisburg, where Calvert Drilling Inc. of Olney hit their wildcat, the J. Bona unit No. 1, in the NW corner of the SW quarter of the NW quarter of Section 23, 8S-6E. The Benoit sand at 2670-90 on a drill stem test gaged in 55 minutes, had 122 feet of clean oil, 85 feet of mud cut oil and five feet of muddy salt water in the drill pipe when pulled and broken down.

The formation pressure was 1140 pounds. This well on Nov. 23 was cutting a core in the Aux Vases at 2854 feet.

Pipe Set Through Cypress
Other oil activity in Saline county for the period ending Nov. 23:

Dee Miller's Spurlock-Rapp-Jones Communitized No. 3, 430 feet west of the SE corner of the NE quarter of the SW quarter of Section 2, 8S-6E (Raleigh), was waiting on cement with five and a half inch pipe set at 2622 through the Cypress.

Calvert's Marshall M. Endicott No. 4, 330 feet south and 1050 feet east of the NW corner of the SE quarter of Section 2, 8S-7E (Eldorado), was cleaning out after hydraulic fracture of the Waltersberg at 2116-23. Total depth was 2166.

Sixteen holes were perforated at 2117-21, swabbing 55 gallons of oil and 55 gallons of water in two hours plugged back to 2130 and fractured.

Drill Stem Tests
Calvert's Amanda Scroggins et al No. 1 in the SE corner of the SE quarter of the SW quarter of Section 2, 8S-7E, was drilling at 2533. A 65 minute drill stem test at 2075-2117 gassed in five minutes, flowed in 50 minutes and recovered 180 feet of oil with a bottom hole pressure of 650 pounds. Cored at 2097-2117, there was recovered three feet of good oil saturated sand and eight and a half feet of shale sand. A two hour drill stem test in the Tar Springs at 2197-2225 got 75 feet of slight oil cut mud at a bottom hole pressure of 500 pounds.

The Humphrey-Tremont Beulah Heights School Communitized No. 2, 345 feet south and 330 feet west of the NE corner of the NW quarter of the SE quarter of Section 20, 8S-7E.

The main event, however, will begin Saturday with the first judging of 11,397 head of prize cattle, sheep, swine and horses which will compete for purple grand championship ribbons and more than \$100,000 in cash prizes.

The livestock and horse contests have attracted entries from 38 states and two Canadian provinces. In the International Grain and Hay Show, now in its 32nd year, there are 1,500 entries of grain, hay and seed from 25 states, four Canadian provinces and Germany.

The beef cattle competition includes entries of 5,808 head of Aberdeen-Angus, Herefords, Polled Shorthorns and shorthorns. This includes 460 steers entered by 347 boys and girls, from 12 to 21 years of age, in the Junior Live Stock Feeding Contest.

Kills Stepson,
Wounds Second in
Thanksgiving Feud

FORT WAYNE (U)—A father shot one of his teenage stepsons to death and critically wounded the other as they sat down to a Thanksgiving Day dinner.

Police said Everett King, 45, admitted the shootings. He said he had been "feuding" with his two stepsons, Gerald Landis, 16, and his brother, Glen, 14, of Logansport.

Gerald was dead on arrival at Parkview hospital, where Glen was reported in "critical condition."

Police said King accused Gerald and his brother of "abusing" his seven children by a second marriage to the Landis boys' mother, Mrs. Edith King, 35.

The shooting followed an argument which started when King, referring to Gerald and Glen, told his wife "to feed the hogs first," police said.

Mrs. King then told her two sons to leave the table and step outside. Her husband followed them outside and shot them, police said.

King then turned on his wife and the other children and threatened to "shoot the whole mess of you," police said.

King was held on an open charge of homicide.

Six Injured in Jurisdictional Dispute by Unions

DETROIT AP—Members of two feuding AFL unions who engaged in a bloody Thanksgiving Day battle at the McLouth Steel Corp. plant worked side by side today under a "nearly perfect agreement" aimed at preventing further trouble.

The holiday brawl, which sent six workers to the hospital, raged until suburban Trenton police fired bullets into the air to quell the swinging of fists, pipe, wrenches and clubs.

Union spokesmen said the riot was the climax of a series of less serious flare-ups among members of Riggers Local 575 and Millwrights Local 1102. Members of both locals are employed by Eichleay Corp. of Pittsburgh, which contracted to replace an old rolling mill at the McLouth plant.

The locals' day shifts were sent home after the jurisdictional battle. The company told the men not to return until they had settled their differences.

The WASHINGTON MERRY-GO-ROUND

By DREW PEARSON

DREW PEARSON Says: Welker Let Cat Out Of Bag About McCarthy's Plans; Wisconsin Senator Has Politically Convenient Illnesses; Ives Figures Price Supports Contributed To Loss.

WASHINGTON. — Despite impressive medical bulletins, many senators are privately suspicious of the sore elbow that has suspended Senate proceedings for 10 days.

The elbow, of course, belongs to Sen. Joe McCarthy who, for such a husky fellow, has had an unusual record of illnesses — most of them politically convenient. What makes senators suspicious is that Joe's pal, GOP Sen. Herman Welker of Idaho, correctly prophesied several weeks in advance that McCarthy would go to the hospital before the Senate vote.

This amazing prediction was made on the return flight from the late Sen. Pat McCarran's funeral in Reno. Welker had stayed up all night after the funeral. On the way back, he insisted on discussing Republican strategy very loudly with pro tem Senate President Styles Bridges of New Hampshire who happened to be sitting in the middle of a group of Democrats, including Harley Kilgore of West Virginia, Jim Eastland of Mississippi and John Stennis of Mississippi.

Bridges did his best to shush up Welker who went right on discussing secret GOP strategy in front of the Democrats. He also gave away McCarthy's plan to delay the Senate vote while his friends tried to stir up national sentiment for him.

In fact, Welker became so loose-lipped that another of Joe's cronies, Sen. Bill Jenner of Indiana, broke in with the warning: "You better watch out! Joe will censure you!"

But the real tip-off was a crack by Welker that Joe was "a sick man" and probably wouldn't last through the Senate debate. Welker predicted flatly that McCarthy would have to go to the hospital. Of course, the Idaho senator didn't mention a bunged-up elbow. Rather, he spoke of Joe's troubles with his sinus and a throat condition. These are old medical alibis, however, that have sent McCarthy scurrying to the hospital nearly a dozen times.

WELL-TIMED ILLNESSES

It may be only a remarkable coincidence, but these hospital visits always seemed to come at a politically convenient time for McCarthy.

For example, he turned up at the hospital just before he was scheduled to make a series of speeches in the last congressional campaign. He thus avoided an embarrassing showdown with the Republican National committee, which wanted him to stay out of the campaign.

At the height of his own 1952 reelection campaign, McCarthy again rushed to the hospital. This won him public sympathy, which he capitalized on to the fullest. At the eleventh hour, he left his sickbed and made a dramatic appeal for votes.

The Army-McCarthy hearings also were delayed because Joe was out west "recovering from a throat infection." And after the hearings, the McCarthy committee couldn't meet to fire counsel Roy Cohn, because Joe was off recuperating again.

McCarthy also came down with a "sinus attack" during the uproar over his charges against the State Department in 1950.

As for the condition of his elbow, Navy doctors described it impressively as "traumatic bursitis" — which means a sore elbow. "HANDSHAKINGITIS" — NOT BURSITIS

In any case, it's well known that senators can write their own diagnosis as far as the public is concerned.

It's true that Dr. George Calver, the congressional physician, confirmed the diagnosis. But he didn't bother to remove the dressing to examine the "infection" and took McCarthy's word that the pain ran down to his fingers.

McCarthy's office explained that he hurt his elbow shaking hands too vigorously with an admirer. But the Associated Press checked all the guests at the reception where it was supposed to have happened. The AP not only couldn't find the anonymous admirer who caused the accident, but couldn't find any one who witnessed it.

Senators also recall that McCarthy made political capital out of a phony war injury. Joe hurt his leg on a shipboard ladder during hazing ceremonies while crossing the equator. Afterward, he promoted this innocent accident into a battlefield injury, claiming at one time that he packed 10 pounds of shrapnel around in the leg.

London Committee Advises Long Range Smog-Clearing Project

LONDON AP—A government committee said today London's smog-filled air could be restored to the purity of more than a century ago but that the project would take many years.

The committee was set up after smog in London killed 4,000 persons in a single month two years ago.

It found that air pollution was "a social and economic evil of the first magnitude" and estimated it was costing the nation some 700 million dollars a year. Many of the smoke control projects recommended would take many years to carry out. The committee urged the conversion from coal to diesel of railway locomotives and the substitution of smokeless fuel for home coal fires which produce nearly half the smoke.

consin after the war, McCarthy limped noticeably. But those who knew him admitted the limp was politically, rather than medically, inspired.

Some senators are convinced his elbow injury falls into the same category.

CAPITAL CHAFF

The Army Chemical Corps has developed an amazing new fiber board. It can be used to insulate homes from poison gas and germ warfare. This fiber board is amazingly cheap yet will also stop radioactive dust, though the deadly gamma rays from an atomic explosion can still penetrate. Labor leaders are willing to make a deal with the White House over filling the National Labor Relations Board vacancies. If the President will appoint a labor man as general counsel, labor will O. K. the Republican choice for board member. Dr. Lester L. Coleman, with an assist from Robert Goldman, has written an important new book, called "Freedom From Fear." If Assistant Secretary of Agriculture Ross Ritzley, ex-Congressman from Oklahoma, doesn't have a red face, he should have. On November 4, he publicly announced that he didn't think a single Republican loss was attributable to Eisenhower's reduction of price supports. Two days later, Sen. Irving Ives listed his vote for Ike's lowered price supports as one reason for his defeat in the New York race for governor.

The Pennsylvania railroad suddenly has withdrawn free railroad passes for employees of other railroads, a courtesy as old as railroading itself. Inside reason is that the Pennsy learned its hated rival, Robert Young of New York Central, was planning to do the same thing. So the Pennsy beat the New York Central to it.

Showgirl's Romance With Liberace Goes On the Rocks

HOLLYWOOD AP—Showgirl Joanne Rio lamented today that her romance with piano idol Liberace, which has gone on the rocks, was "just a lot of publicity and I got caught right in the middle of it."

The pretty 23-year-old brunette

said the television star gave her the cold-shoulder because he apparently was "embarrassed" over an intimate three-part series on their romance which she wrote for a Los Angeles newspaper.

"It's ridiculous for people to say we were engaged," Miss Rio said Thursday. "We never were. It was just a lot of publicity."

The showgirl said she couldn't understand why the curly-haired pianist should be indignant over

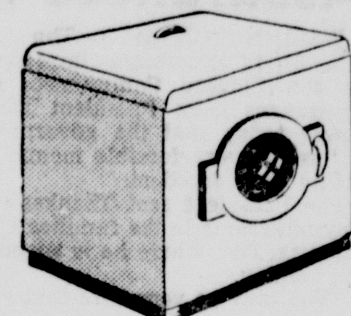

her newspaper story because she showed it to him and his agent before it was published and "they didn't disapprove of it then."

Three Convicts Charged with Remington Death

Reveal Attempt To Rob Cell as Motive for Slaying

LEWISBURG, Pa. — Three fellow convicts, including a 17-year-old juvenile delinquent, were charged today with beating to death William Walter Remington, 37, former government economist imprisoned for perjury in a Communist spy case, while attempting to rob his prison cell.

The motive for the slaying was revealed for the first time when FBI agents filed a murder complaint against the third defendant, teenager Lewis Cagle Jr. of Chattanooga, Tenn.

George Junior McCoy, 34, of

Grundy, Va., and Robert Carl Parker, 21, of Washington, D. C., previously had been charged with the brick-in-a-sock slaying of Remington in the dormitory of the federal prison here.

The complaint against Cagle, like those against McCoy and Parker, was filed by FBI agents before U. S. Commissioner Andrew A. Leiser Jr. here. The complaints were authored by U. S. Atty. J. Julius Levy.

Halts Rumors

Norman H. McCabe, special FBI agent in charge at Philadelphia said Cagle admitted that he, McCoy and Parker planned to ransack Remington's cell in the dormitory of the Northeastern Federal Penitentiary last Monday morning. The fatal beating took place while they were in Remington's room, McCabe said.

The robbery motive announcement halted rumors that Remington's death may have had a connection with communism. There had been speculation that the fatal beating may have resulted from prisoner resentment over publicity accompanying the scheduled release of Alger Hiss Saturday. Hiss, like Remington, was jailed for per-

jury in connection with congressional investigations of communism. Both had been honor prisoners at the penitentiary.

The body of Remington, who entered government service immediately after college and rose quickly to a \$10,000 yearly job as an economist, was taken to Midland Park.

N. J. Thursday night. Funeral services will be held Saturday.

Their Source

The frankincense and myrrh of the Bible came from the hill country of Dhofer, a part of the Oman sultanate, which lies between the Arabian Sea and the great Arabian desert.

NEW DRUGS?

From the cultures of primitive peoples . . . from the unwritten compendium of knowledge of the witch doctor . . . from the tales of old wives . . . from the oldest pharmacopoeias in the world, medical scientists are rediscovering new drugs which have been used since time immemorial.

To find the answers to many diseases which have eluded the medical scientist, even with the armamentarium of synthetic drugs at his disposal, the scientist has had to go back to very unscientific sources and oftentimes, has found an answer to his searches. No piece of ancient medical knowledge, no matter how ridiculously foolish or even embodying an air of superstition, is being neglected.

As recent as the last year, a whole new concept of treating high blood pressure and neuropsychiatric disorders has evolved from ancient East Indian medicine.

The results of this tireless search are on the shelves at Harris' Pharmacy. Visit Harris' with confidence the next time you have a prescription to be filled. Why? Because it will be CONVENIENT for you to get a REFILL in case your doctor wishes the prescription to be refilled.

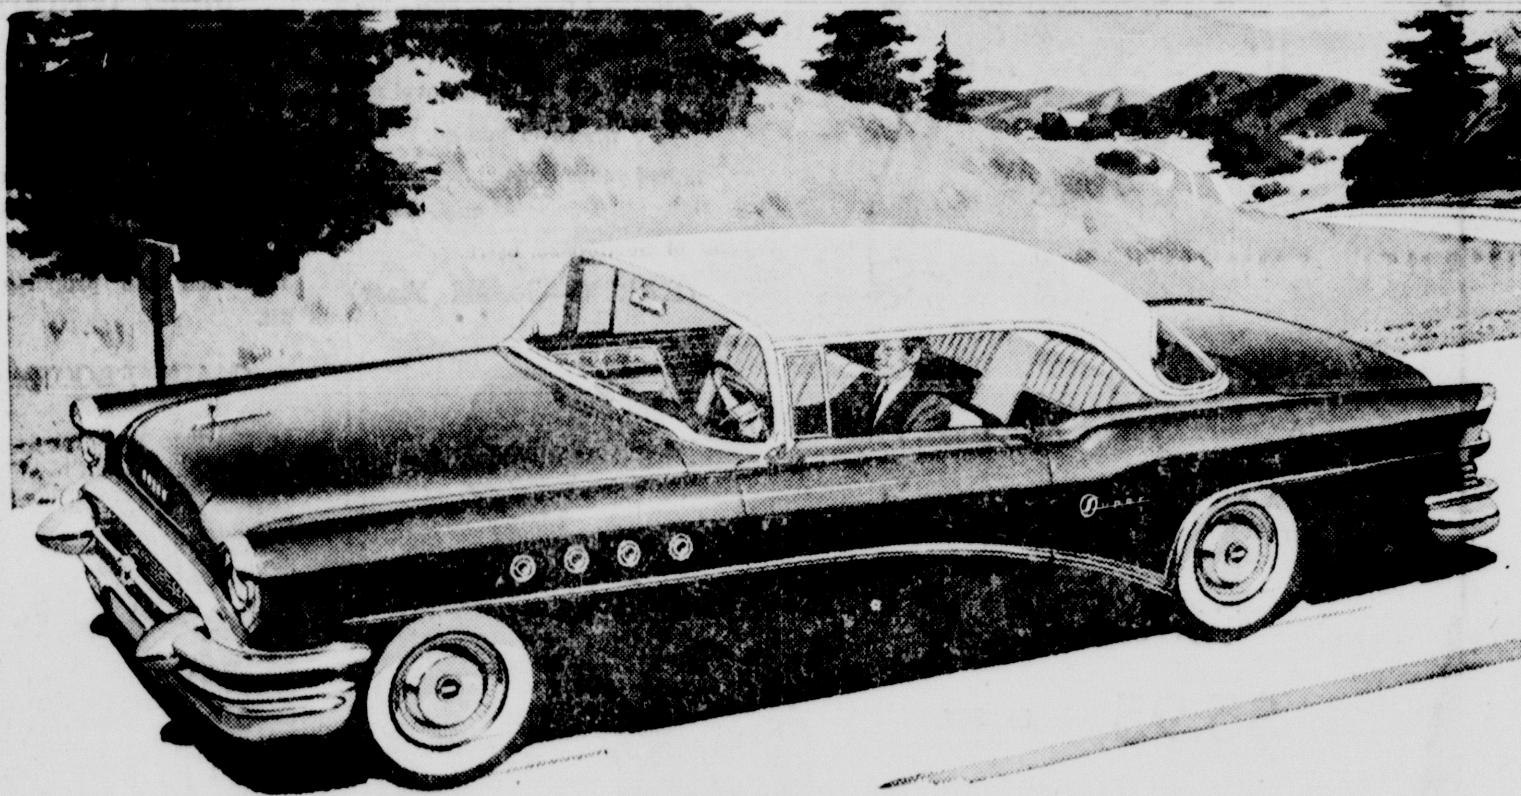

Our friendly doctors do not hesitate to phone a prescription to us because they know about our fine stock of drugs, and are confident that their patients will receive sincere and considerate treatment at our pharmacy.

CARRIER MILLS ILLINOIS

All this - and more miles per gallon too!

Be sure to test out the phenomenal effect of "variable pitch propellers" in Dynaflo Drive!

MAYBE—among the upcoming crop of new 1955 models—there's another car with an advance that can hold a candle to this one. But we doubt it. We doubt it because now here—among the rumors of what's cooking in automotive laboratories—is there anything to compare with what's actually happened at Buick.

It all started with the fact that modern air liners get two big advantages because they can change the pitch of their propellers.

First, they get off the ground hundreds of feet sooner than they used to.

Second, they can stretch their gasoline by setting propeller blades at just the right "pitch" for cruising.

So Buick engineers asked themselves—"If you can do it with air, why can't you do it with oil—the oil inside a Dynaflo Drive?" And to make a long story short—they could, and they did.

They designed and engineered the propeller-like blades inside the "stator" of a Dynaflo Drive so they can change their pitch as much as 75 degrees.

That provides one setting for more miles-per-gallon, and another for an instant safety-surge of power when it's needed.

All you have to do is push the accelerator pedal down to the last half-inch

beyond the full throttle position—and a-way you go!

Of course, there's a lot more to make a visit to our showrooms the "must" of the new-car year.

There's a step-up in styling as sensational as the step-up in power.

And the step-up in horsepower is this: 236 in the ROADMASTER, SUPER and CENTURY—188 in the low-priced SPECIAL.

Pay-off on progress!

Buicks today go a lot farther on a gallon of gas, thanks to constant improvement in Dynaflo and in engine design. Even the new 236-hp ROADMASTER averages 4.8 more miles per gallon than Buicks of six years ago.

But the thrill of the year is Buick's latest engineering "first"—and what it does for the man or woman who drives the latest and greatest Dynaflo Drive.

*Standard on Roadmaster, optional at extra cost on other Series.

Los Angeles Fog-Smog Causes Traffic Deaths

LOS ANGELES (UP) — A new blanket of smog, one of the worst of the year, shrouded Los Angeles today and may have caused the deaths of three infants.

The gray, blinding fog-smog was also blamed for two fatal auto accidents, 100 traffic injuries and about 650 traffic mishaps in southern California. Planes were grounded at various times and ships along the coast were stalled.

The three infants, all three-months-old, died of respiratory ailments within a 45-minute period during Thursday's heavy, gray Thanksgiving. They were Michael Shabarekh, Hollywood, Linda Sue James, Van Nuys, and Stevens M. Bugg, San Pedro.

Dr. George M. Uhl, city health officer, said, "We are going to throw our full facilities into the task of determining whether the deaths of these three infants is coincidence or something far more significant."

Maryland Wallops Missouri, 74-13, In Thanksgiving Day Tilt; Hopes for Bowl Bid

By United Press

Maryland's inspired maulers and three other big Thanksgiving Day winners — Denver, Wichita, and Virginia Tech — were hoping out loud today that their holiday triumphs would be richly rewarded by bowl bids.

Maryland is anxious for a second straight trip to the Orange Bowl and the Terrapins think they gave the selection committee plenty of reasons to pick them in a 74-13 wallowing of Missouri in Thursday's nationally televised gridiron show.

Denver is dreaming of the Gator or Sun bowls after winning the Skyline Conference championship with a 34-0 victory over Colorado A and M. Wichita, which captured its first unbeaten season in 36 years by trouncing VMI, 46-9, also are thinking of the Gator Bowl.

Cornell Downs Quakers

Cornell gained a tie with Yale for the Ivy group championship by whipping winless Pennsylvania, 20-6, but the Big Red is out of the bowl picture because of Ivy group rules barring that sort of thing.

Maryland went into Thursday's game before a home crowd of 20,000 at College Park, Md., tagged as a 14-point favorite but blazing with a desire to show the Atlantic Coast Conference that it should represent the league in the Orange Bowl against Nebraska. The Terrapins can't finish first in the ACC unless North Carolina upsets Duke Saturday, but the ACC has announced merely that it will select the league's "most representative team."

Other Results

In other holiday highlights: Brown edged Colgate, 18-14, building up a three-touchdown first half lead with the help of two TD passes by Pete Kohut and then seeing Colgate score twice in the fourth quarter before Harry Josephson's pass interception ended a third drive on the 15. Miami of Ohio came back from a 9-7 half-time deficit to win its 59th meeting with Cincinnati, 21-8, on two second-half scores by Dick Hunter; William and Mary nicked Richmond, 2-0, when center Bill Marzico blocked a fourth-quarter punt for a safety; Texas downed Texas A and M in a rough game, 22-13, as Charley Brewer passed for two touchdowns and Utah State beat Utah for the first time in eight years, 35-19, rolling up its highest total in the series that began in 1892 as Kent Harris passed to two touchdowns.

One game is on the Friday schedule — Nebraska, whose next stop is the Orange Bowl, against the University of Hawaii in Honolulu.

Army remains a six-point favorite over Navy in the service classic that heads the final big Saturday

of the season Saturday. A national television audience will watch the Cadets and Middies battle it out, with the Lambert trophy emblematic of eastern football supremacy riding on the outcome.

Also Saturday, Baylor can tie Arkansas for the Southwest Conference title by beating Rice.

Yoshida Gives Up Party Leadership

TOKYO (UP) — Prime Minister Shigeru Yoshida today gave up the leadership of the Liberal party which he guided through more than eight years of the stormy postwar era, a Japanese news service said.

Yoshida agreed to step down as president of the Liberal party in favor of Deputy Premier Taketora Ogata after party leaders decided Thursday that this was the best course of action, the Kyodo agency said.

Eagles, Lacking Experience, Will Open Season Against Benton Saturday

The Eldorado Eagles, who enter the 1954-55 basketball season Saturday night, are an inexperienced group, with only four seniors on the varsity squad and only one of the four has played sufficient first team ball in the past to be a letter winner.

However, Coach Al Adams isn't talking the blues and feels the team will steadily improve as the season wears on.

"This looks like the season we build for the future," Adams said recently, but added "many of the boys played good ball on the sophomore squad last season and we believe they will play a good brand of ball on the varsity."

Five Killed While Hunting

By United Press

Five persons died of accidental wounds suffered while hunting in Illinois this fall—four of them boys under 17.

William E. Schafer, 16, was the latest victim. He died at Firmin Desloge hospital, St. Louis, Thanksgiving Day of a wound he received while hunting on his father's farm near Vergennes Tuesday.

Police said the boy was hunting from a tractor which apparently hit a stump and turned over, causing his shotgun to discharge. The blast hit him in the left side of the chest.

Schafer lay in the field almost all day before his brother, Kenneth, found him and took him to a hospital.

A United Press survey showed the other 1954 hunting fatalities included Lewis Henry, 39, Christian; John Thompson, 13, Fulton; John M. McGow, 15, Highland; and Don Sloan, 12, Herrin.

Four others have died in other incidents connected with the Illinois hunting season, the survey showed.

One suffered a fatal heart attack while hunting, and another drowned while working on a duck blind. Two men were wounded fatally in their homes, one as he left to go hunting, the other as he returned from a hunting trip.

Flyers Win 32nd Straight Grid Victory

By United Press

East St. Louis registered its 32nd straight win and Peoria Central pocketed the Big 12 title in Thanksgiving Day Illinois prep football games.

Coach Wirt Downing's East St. Louis Flyers whipped Belleville 20-6 to cap their third straight perfect season.

Not since 1951 have the Flyers been stopped. Then, it was Belleville that turned the trick—by an identical 20-6 score.

Peoria Central rounded out its first unbeaten campaign in history, downing Peoria Manual 26-6 in another traditional Turkey Day game.

The triumph gave Central the Big 12 City, and Greater Peoria conference titles. The Lions won 10 games and were tied once.

Ridgway Eagles Lose 53-42 Cage Contest On McLeansboro Floor

The McLeansboro Foxes defeated Ridgway's Eagles Wednesday night 53-42 in a game played on the winners' floor.

This was the first game of the season for McLeansboro and the decision left Ridgway with a record of two victories in six starts.

The preliminary game also resulted in a McLeansboro win, 69-48.

The scoring: McLeansboro, Doyle Lee 2, Bell 9, Hall 7, Jones 1, Gateley 6, Webb 7, Davis 2, Sloan 9 and Bob Lee 10.

Nixon Believes Another Hiss Case Unlikely Under Security Programs

WASHINGTON (AP) — Is another "Hiss case" possible? Vice President Richard M. Nixon who played a major role in bringing Alger Hiss to book, thinks it highly unlikely under present government security programs. Nixon also feels that Hiss, former State Department official, never would have gone to prison except for the tireless investigations of the House Un-American Activities Committee. The Vice President has refused to comment on the release Saturday of Hiss from the Lewisburg, Pa., Federal Penitentiary. Nor will Nixon discuss publicly the details of his own role—as a member of the Un-American Activities Committee—in the case which eventually put Hiss behind bars for perjury and skyrocketed Nixon to high office. But Nixon's recent remarks in campaign speeches and elsewhere clearly underline his belief that the Eisenhower administration's security program will trap loyalty suspects such as Hiss who might have been cleared under former regulations. Some Security Doubt The Vice President's harping on that point provoked bitter controversy between him and the Democrats during the recent congressional campaign. A writer and admitted former Communist, Whittaker Chambers, named Hiss. A dramatic "confrontation" followed. Hiss coolly denied Chambers' charges. The committee appeared willing to listen but remained skeptical. Largely through Nixon's efforts, which turned up corroborating evidence, Hiss eventually was indicted for perjury and convicted. The Vice President is known to feel strongly that all congressional investigations of subversive activities should be concentrated in one committee. He has told friends that the committee might be either House, Senate or joint, but it should be given the responsibility and manned with able lawyers for members.

U. I. Committee To Recommend Dr. Henry as Prexy

CHAMPAIGN, Ill. (AP)—Dr. David D. Henry will be recommended Monday for the presidency of the University of Illinois despite his statement that he does not wish to be considered for the post. A University of Illinois faculty committee said it will recommend Henry anyway at a board of trustees meeting. Henry informed the trustees that he did not wish to be considered for the post after Vernon L. Nickell, state superintendent of public instruction and honorary member of the trustees, scheduled a public meeting in Detroit to allegedly check into Henry's background. Henry, vice chancellor of New York University, was formerly president of Wayne University in Detroit.

Hoover Calls for Moral, Spiritual Resistance to Reds

BERLIN (AP) — Former President Herbert Hoover said today the dangers of war have decreased but communism still is trying to "destroy the very foundations of civilization." The 80-year-old ex-President called for moral and spiritual resistance to communism with religion the "first bastion" of defense. He spoke to West Berlin and Allied officials at the West Berlin City Hall on the last day of his six-day visit to West Germany and this Western outpost surrounded by Communist territory. "The City of Berlin is on the front line of the Cold War," Mr. Hoover said at a banquet in his honor given by the city. However, he warned that the West must wait for "more particulars" before accepting Communist assurances of good will.
